Justification : Further appropriations (EUR 19,000) are necessary in order to support the management of operational activities at EU-OSHA via the ABM tool MATRIX.  
The availability of appropriations in Networking (BL 3060) is made possible thanks to expenditure lower than initially expected in particular in relation to meetings (logistics and expert reimbursements)

- BL 2210: furniture for meeting rooms (80 chairs) and ergonomic chair (1) for the Agency's staff (+EUR 4,108)
- BL 2232: Agency's vehicle repair (+EUR 354)
- BL 2330: hire further services of external law firm to specific legal assistance to EU-OSHA (+EUR 1,170)

**Justification :** The purpose of this transfer within the Title 3 of Expenditure (operational activities Workprogramme 2018) is to reshuffle/re-allocate the available appropriations in order to :

- BL 3020: increase the costs of fieldwork (general to all surveys) plus higher costs (1) developing the new site for ESENER visualisation tools and (2) migrating the data visualisation tools of ESENER-1 and ESENER-2 to Pentaho: +EUR 122,006
- BL 3040: appropriations necessary for further development work to prepare common framework for standardization of all EU-OSHA Data Visualization Tools for the operational activity "4.7. Awareness and communication" and also for more translation services corresponding to portfolio requests ("4.8. Multilingualism"): +EUR 13,416
- BL 3050: higher than anticipated visualisation & indicator development costs in the EU OSH information system with the EU leads to an increase to the initial budget for the activity "5.3. Networking knowledge": + EUR 11,008.

Availability of appropriations to be transferred is mainly explained by lower costs for dissemination workshops/meetings (activities 2.1, 2.3. & 3.1.), tasks/evaluations postponed to 2019 (activities 2.4., 2.5. & 4.6.) and less missions for staff.

## 2 FINANCIAL STATEMENTS

### Reporting entity

EU-OSHA was created by the Council Regulation (EC) 2062/94 of 18 July 1994 establishing a European Agency for Safety and Health at Work.

### Basis for preparation

As a general rule, all aspect of the financial accounts have been drawn up in accordance with the Financial Regulation applicable to EU-OSHA adopted by EU-OSHA's Governing Board on 15<sup>th</sup> January 2014. Also the Regulation 966/2012 (General Financial Regulation) is applicable. Pursuant the article 145 of this general Financial Regulation, the financial statement shall comprise:

- The balance sheet
- The statement of financial performance
- The statement of changes on net assets
- The cash-flow table
- Notes to the financial statements

According to the accounting standards and to the instructions given by the Commission Accountant, the accounts are presented under accrual basis<sup>1</sup>. According to the existing tools, and since ABAC was implemented in 2008, the accounts are produced during the year in a limited accrual basis, and by the end of the year the closing of the accounts are adapted to be presented in a full accrual basis. This adaptation consists mainly in:

- Consideration of impact of fixed assets and depreciation
- Consideration of impact of pre-financings
- Withdrawal of carry forwards and introduction of real debts (payables and accrued expenses)
- Withdrawal of the impact of the accrual operation of the last year.

These accounts are presented in respect of the accounting principles, explained as follows:

#### *Currency*

The accounts are established in Euros (€).

#### *Going concern basis.*

EU-OSHA is deemed to have been established for an indefinite duration.

#### *Prudence.*

Assets and income have not been overstated, liabilities and expenses have not been understated. No hidden reserves or undue provisions have been created.

#### *Consistent accounting methods.*

The accounting methods and valuation must not be changed from one year to the other.

The calculation of the depreciation starts the day of "mise en service". The depreciation rates are those established in the ABAC rules, and will be detailed in the specific item.

---

<sup>1</sup> "In accrual accounts, transactions are recognized when they occur... even if the payments (are) to be made the following year".

### *Comparability of information.*

The financial statements show all the amounts in the corresponding item for the previous year. When the presentation of the classification of one of the components is changed, the corresponding amounts for the previous year shall be made comparable and reclassified.

### *Materiality and aggregation.*

All the operations which are significant for the information have been taken into account in the financial statements. Items that are material by virtue of their size but with the same nature can be aggregated. Amounts negligible can also be aggregated.

### *No-netting principle.*

Receivables and debts have not been offset against each other, nor may charges or incomes, save where charges and income derive from the same transaction, from similar transactions or from hedging operations and provided they are not individually material.

### *Reality over appearance.*

Accounting events recorded in the financial statements are presented by reference to their economic nature.

### *Accrual-based accounting principle*

Transactions and events shall be entered in the accounts when they occur and not when amounts are actually paid or recovered. They shall be booked to the financial years to which they relate.

Concerning the operations financed by earmarked revenues (R0) the cash principle has been kept. The effect of this in the whole accounts is negligible.

### *Valuation of assets and liabilities*

Assets and liabilities shall be valued at purchase price or production cost. However, the value of non-financial fixed assets and formation expenses shall be written down for depreciation. In addition a write-down may be applied where the value of an asset decreases and an increase in the value of a liability may be covered by a provision.

### Note related to Payroll charges

All salary calculations giving the total staff expenses included in the Statement of financial performance of the Agency are externalized to the Office for administration and payment of individual entitlements (also known as the Paymaster's Office-PMO) which is a central office of the European Commission.

The PMO's mission is to manage the financial rights of permanent, temporary and contractual staff working at the Commission, to calculate and to pay their salaries and other financial entitlements. The PMO provides these services to other EU institutions and agencies as well. The PMO is also responsible for managing the health insurance fund of the Institutions, together with processing and paying the claims of reimbursement from staff members. The PMO also manages the pension fund and pays the pensions of retired staff members. PMO is being audited by the European Court of Auditors.

The Agency is only responsible for the communication to the PMO of reliable information allowing the calculation of the staff costs. It is also responsible to check that this information has been correctly handled in the monthly payroll report used for accounting payroll costs. It is not responsible for the calculation of the payroll costs performed by PMO.

## 2.1 BALANCE SHEET

"The balance sheet gives a description of assets and liabilities at year-end. Assets are presented according to their liquidity... (the) liabilities according to the extents to which they are due."
